

Sunstar Americas, Inc.

ENVIRONMENTAL POLICY

Sunstar Americas, Inc. is committed to promoting the health, welfare, and safety of employees, customers, and the communities in which it operates. While the products we provide are guaranteed to be safe and effective, the Company is also committed to environmental sustainability through energy conservation, waste reduction, recycling, and eco-friendly products. Sunstar Americas will meet or exceed all regulatory requirements, and continuously seek the opinions of leading environmental experts and stakeholders to advance this commitment.

GUIDING PRINCIPLES

1. Recognize the importance of a healthy global environment, and promote activities that are in harmony and coexistence with the environment.
2. Strive to recognize and to continually reduce our environmental impact by conserving resources and energy and reducing waste throughout all business activities.
3. Develop products utilizing technologies that minimize the environmental load and efficiently utilize resources and energy throughout the product life cycle.
4. Adhere to all environmental laws, regulations, codes and agreements to ensure that our activities promote a safer and healthier environment.
5. Make our environmental policy known to all employees, business partners and customers; and provide education and encourage commitment of our employees to apply sound environmental practices in their work and private lives.
6. Provide the general public with information on our environmental policy and initiatives.
